Poplar Wood Dowels and Squares:

The poplar dowels and squares we produce are machined to exact size from kiln dried material. We strive to hold the dimensions to plus or minus five thousandths of an inch. Poplar is a cream color hardwood. It offers superior quality characteristics for sanding, gluing, painting, staining, nailing and stapling. It is smooth and has a fine grain.

Oak Wood Dowels:

We produce our oak dowels from kiln dried material to the same tolerances as outlined above. American oak is the king of all hardwoods. It has a beautiful but coarse grain, is durable, very strong, stays straight and is a favorite in the furniture industry. Oak planes easily but is difficult to lathe turn for most applications. It glues satisfactorily but must be handled with care.

Grooved Dowel Pins, Craft Items & Other Turnings

For extra strength we produce all dowel pins from kiln dried American oak. All pins are chamfered on both ends and packed in either small boxes or bulk warehouse cartons. Craft items are produced from kiln dried materials and are mostly birch and poplar. Some high velocity items are offered in oak. These items are offered in small boxes or bulk warehouse cartons.

Ordering Information:

Dowels and Squares 36" and longer can generally be shipped within 5 working days. Dowels and Squares shorter than 36" are subject to accumulation and availability. Please contact us for availability on the short items before ordering. Please order in full carton quantities. Grooved dowel pins, craft items and turnings are in ready stock in small boxes or bulk warehouse cartons. Please order in standard pack quantities. We palletize each order

Terms and Conditions:

1. F.O.B. factory Nashville, Tennessee. (Customer Pays Freight)
2. Minimum shipment: \$500.00
3. Payment terms are check in advance or credit card (Visa, MasterCard, Discover, or AMEX). (No C.O.D.'s).
